The highest quality European fabrics

LEACRIL by Sattler - for models: Monte Carlo, Monaco, Parisienne, London, Vienna

100% acrylic fibre; spun dyed. Weight 300g/m². Weather resistant and water repellent to 37 HPa. Efficient protection against oil, fat, growth of mildew and pollution. Very high light and color fastness. Tested acc. to Oko-Tex standard 100 as well as the UV standard. DIN non fade rating "7". Two tone fabric with alternating panels on request. Attention! White folds are possible during processing or transit. This is a natural occurrence known as chalking and cannot be compensated for.

TEMPOTEST by Para - for models: Antibes, Palermo, Milano, San Marino, Roma and Trieste

The Tempotest® fabric collection is specifically designed for outdoors and is perfect for sun protection, garden furniture and for both interior and exteriors of boats. Tempotest® combines the resistance and performance of 100% dyed solution fabric, with a Teflon based finish, style and color, and it is available in a full range of 400 different patterns featuring elegance and originality. Thanks to its innovative finishing, Tempotest® fabrics are water and oil repellent and resistant to mould, stains salt and U.V. fading.

ORCHESTRA by Dickson - for models: Malaga

Orchestra awning fabrics are designed for your comfort and well-being. Material > 100% solution-dyed acrylic. Solar factor (SF) >> blocks up to 95% of glare effect. Thermal comfort > reduces heat by up to 95%, prevents greenhouse effects. Protection > UPF 12+, UPF 30+ and UPF 50+ up to 100% of UV rays filtered. Treatment > Cleangard® for awnings. Based on nanotechnology for unrivalled resistance to stains, oils and fats, water, and soiling. Exceptional resistance to water. Color fastness under UV rays and bad weather > 7 to 8/8.
